1. Opening the system

Open a browser (Chrome, Edge or Safari) and type the system address, or scan the QR code posted in the office.

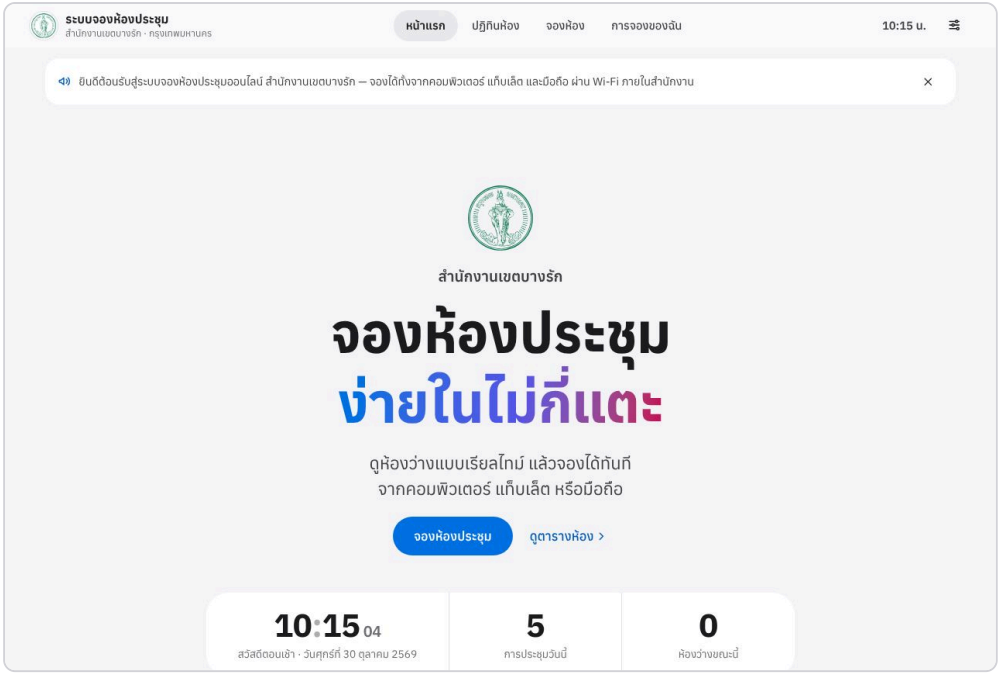

Item	For this office (filled in by IT)
System address	**__**
Meeting room coordinator / extension	**__**

> If the system is hosted inside the office (not in the cloud), you must be on the **office Wi-Fi or LAN** to open it.

The main menu is at the top of every page: **หน้าแรก** (Home) · **ปฏิทินห้อง** (Calendar) · **จองห้อง** (Book a room) · **การจองของฉัน** (My bookings)

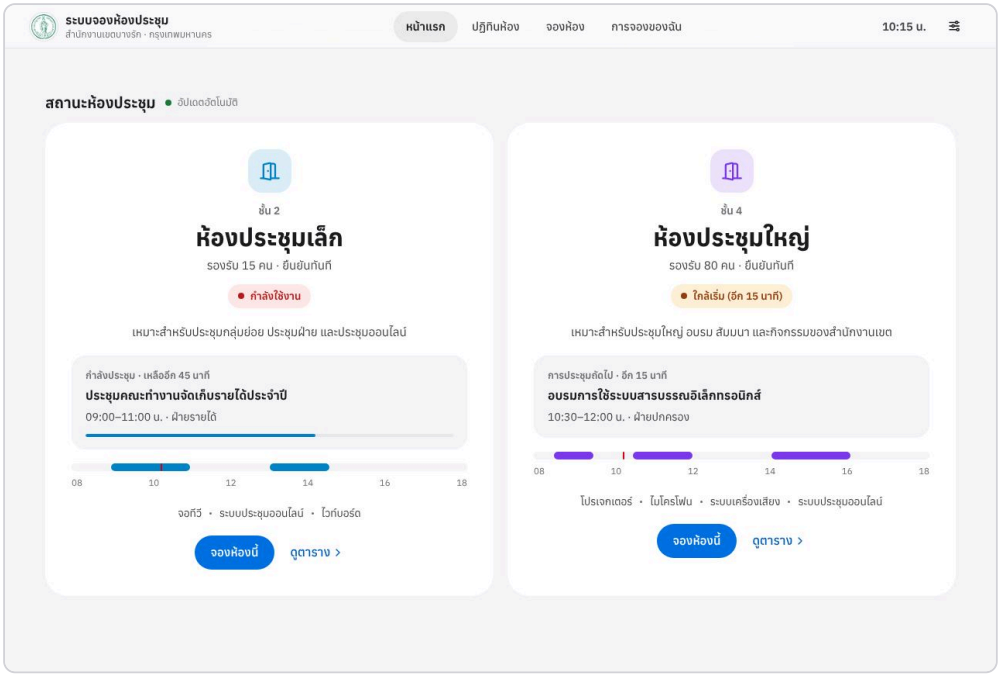

---

2. Home: room status

- The banner at the top is an announcement from the administrators (press × to hide it).
- The number tiles show the current time, today's meetings, and how many rooms are free right now.
- Press **จองห้องประชุม** (Book a meeting room) to start, or **ดูตารางห้อง** (View schedule) to open the calendar.

Scroll down to see a card for each room.

Card status	Meaning
ว่าง (Free)	No meeting at the moment
ไม่ว่าง (In use)	A meeting is on; shows when it will be free

Card status	Meaning
ใกล้เริ่มประชุม (Starting soon)	A meeting starts shortly

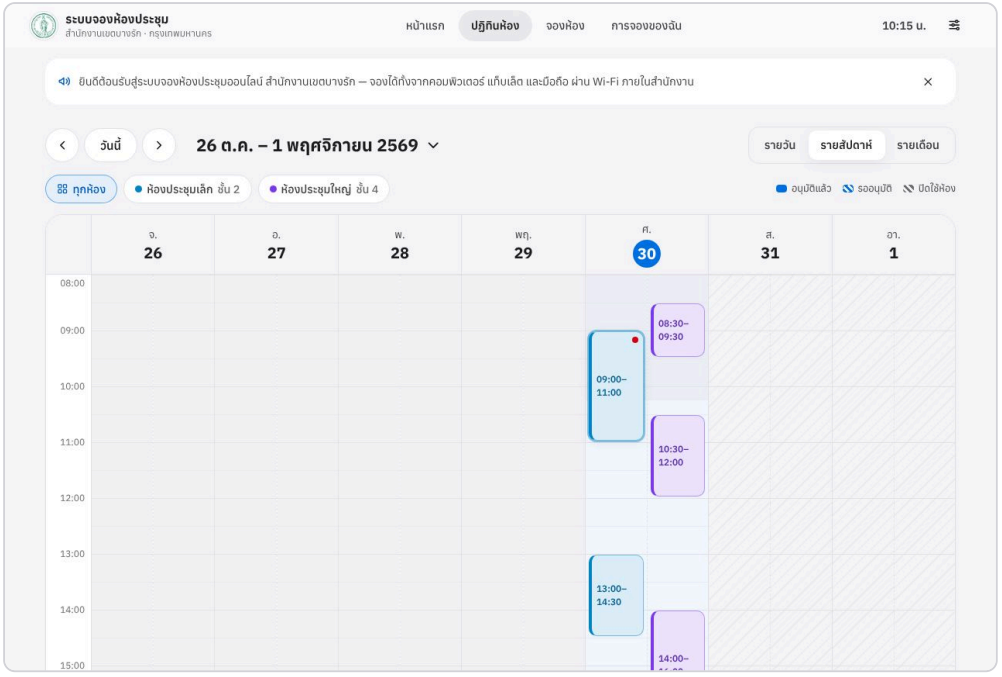

The timeline under each card shows today's booked periods (the red line is the current time). Below it are the room's equipment and the buttons **จองห้องนี้** (Book this room) / **ดูตาราง** (Schedule).

ยืนยันทันที (Instant confirmation) under the room name means the booking is confirmed immediately. **รอผู้ดูแลอนุมัติ** (Awaits administrator approval) means an administrator must approve it first.

Every screen updates itself instantly when someone books or cancels — no need to refresh.

---

3. Room calendar

- On phones, swipe left/right to change the day.

---

4. Booking in 3 steps

Press **จองห้อง** (Book a room) in the top menu, or **จองห้องนี้** on a room card. The summary box on the right always shows what you have chosen.

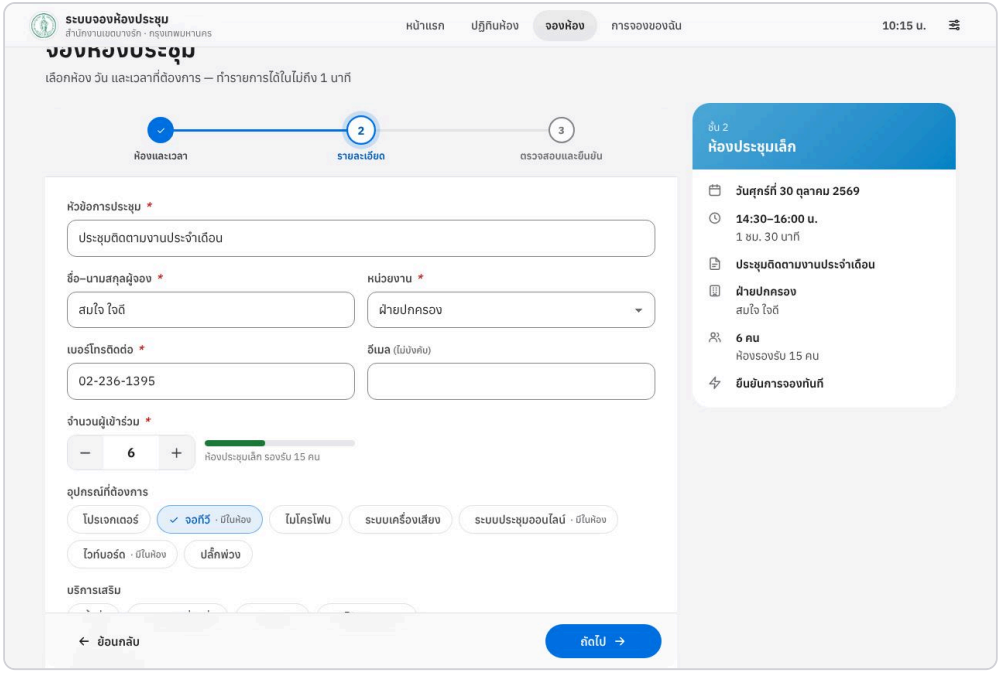

Step 1 — Room and time (ห้องและเวลา)

1. **เลือกห้องประชุม** — choose the room.
2. **เลือกวันที่** — choose the date. Crossed-out dates cannot be booked (holidays, weekends, or beyond the advance-booking window).
3. **เลือกช่วงเวลา** — choose the time:
    - Tap the **start slot**, then tap the **last slot** you need; or
    - tap a start slot and press a duration button such as **1 ชั่วโมง** (1 hour), **2 ชั่วโมง** (2 hours); or
    - press **ช่วงเช้า / ช่วงบ่าย / ทั้งวัน** (Morning / Afternoon / All day).
    - Hatched slots are taken. Tap another slot to start over.

Press **ถัดไป** (Next).

Step 2 — Details (รายละเอียด)

Field	Notes

ชื่อ–นามสกุลผู้จอง (Your full name) *	
หน่วยงาน (Department) *	Pick from the list
เบอร์โทรติดต่อ (Phone) *	Used to find the booking from another device and for call-backs
อีเมล (Email)	Optional unless the office requires it

บริการเสริม (Services)	e.g. drinking water, coffee, snacks
หมายเหตุ (Note)	Message for the room coordinator

* = required

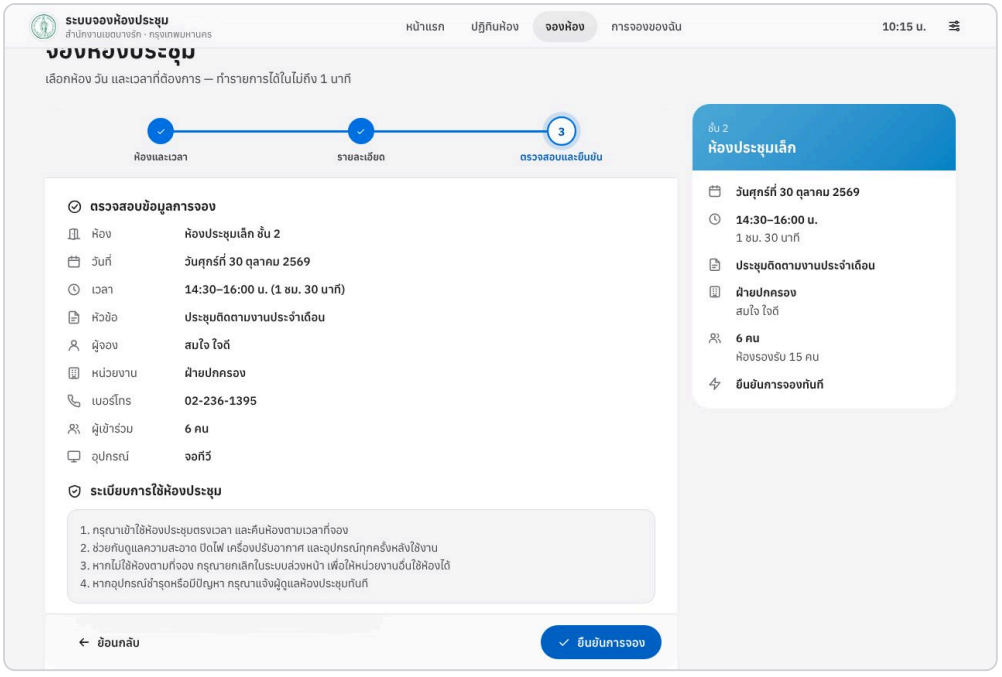

Recurring booking (จองซ้ำ): choose **ทุกสัปดาห์** (Weekly) or **ทุกวันทำการ** (Every working day) and the number of times. The system checks availability for every date in advance; free dates get a tick. If some dates are taken, it asks whether to book only the free ones.

Options at the end of the form:

- **จดจำชื่อ หน่วยงาน และเบอร์โทรไว้ในอุปกรณ์นี้** (Remember my name, department and phone on this device) — only on your own device.
- **นี่เป็นอุปกรณ์ส่วนกลาง** (This is a shared device) — the booking is not kept on that device. Write down the booking code and look it up later from your own device.

Press **ถัดไป** (Next).

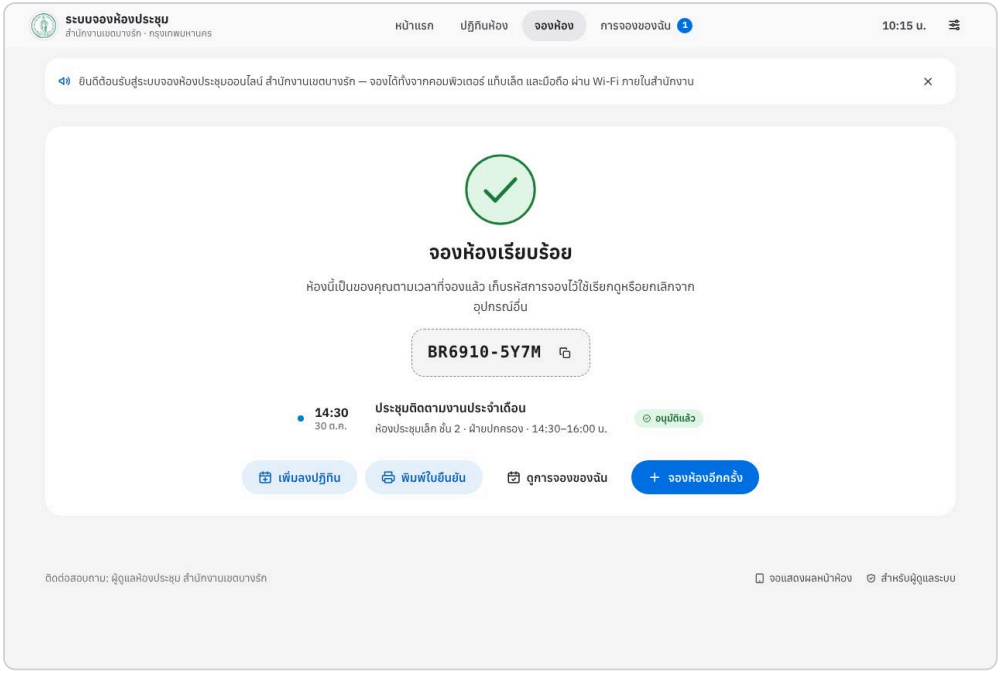

Step 3 — Review and confirm (ตรวจสอบและยืนยัน)

Check the details, read the room rules, tick **ข้าพเจ้าได้อ่านและยินยอมปฏิบัติตามระเบียบการใช้ห้องประชุม** (I have read and agree to the room rules), then press **ยืนยันการจอง** (Confirm booking).

---

5. After booking
